

**PEF Division 399 Announces a
Benefit Every Month Club**

Citizen Actual Fuel Group [CAFG]

Who is Citizen Action Fuel Group?

Citizen Action Fuel Group (CAFG) is a non-profit fuel buying group that has been helping people save on their home heating fuel costs for over 17 years using the power of group purchasing. CAFG is sponsored by Citizen Action of New York.

In addition to the direct services CAFG provides, we have been active in the community, working to monitor and buffer the effects of energy deregulation in the 1990s by sponsoring local fundraising events and working with social service agencies. In the more recent era of industry consolidation, we're working to maintain competition in the market.

How Does Citizen Action Fuel Group Work?

CAFG is a fuel buying group that serves 22 counties in New York State. We contract with local fuel suppliers chosen for reliable service and negotiate low costs on behalf of our members. Suppliers are responsible for fuel deliveries. By joining with other heating fuel users in CAFG, you too can receive regular delivery services at the Fuel Group's discount price.

\$25.00 Membership is Waived for all PEF Members
