Re: Boil Water Mandate in Endicott

I am asking for your assistance regarding an issue that has occurred at the Glendale Facility. As you know, the Southern Tier of NYS was devastated with severe flooding starting on Wednesday, June 28th. Thursday afternoon, there was a Boil Water Mandate for Endicott, NY. We have been working with the DDD administration and they have been in contact with the Deputy Commissioner and OGS regarding providing water for our members. At this time, this still has been unresolved. I realize that there are other crucial matters happening in our community, but if they are expecting our members to be at the work place, the facility needs to be a safe environment for our members.

I am also attaching a press release announcing the boil water mandate.

Thank you for your assistance in this matter.
